

**AMENDMENT TO H.R. \_\_\_\_\_**  
**OFFERED BY MR. CARNAHAN OF MISSOURI**

At the end of title IV, add the following:

1   **SEC. 4 \_\_\_\_ . ASSISTANCE TO ESTABLISH PARTNERSHIPS BE-**  
2                   **TWEEN BUSINESSES AND POSTSECONDARY**  
3                   **EDUCATIONAL INSTITUTIONS IN DEVEL-**  
4                   **OPING COUNTRIES IN AFRICA.**

5       (a) **FINDINGS.**—Congress finds the following:

6           (1) There is a growing need in developing coun-  
7       tries in Africa to educate and properly train future  
8       business leaders in such a way to help them adapt  
9       to the demanding complexities of leadership.

10          (2) This growing need has led to the call for  
11       Africa to develop and train the next generation of  
12       leaders that will bring Africa forward into a peaceful  
13       and prosperous new century and ensure that democ-  
14       racy lasts across the continent.

15          (3) One of the ways to help train the next gen-  
16       eration of leaders is through entrepreneurial edu-  
17       cation, entrepreneurship may be one of the most im-  
18       portant channels through which education raises  
19       economic productivity.

1           (4) All youth should be provided with the access  
2           to any and all opportunities to develop skills, atti-  
3           tudes, and abilities that are needed in later life that  
4           can lead to entrepreneurship and leadership.

5           (5) One of the goals of educators should be to  
6           train students to become self-employed after gradua-  
7           tion and produce the goods and services that are  
8           needed locally, thereby initiating significant internal  
9           economic activity.

10          (6) It is important that the youth be assisted  
11          to achieve higher levels of access and entry into the  
12          economy as potentially self-employed people since  
13          there are simply not enough employment opportuni-  
14          ties within the private and public sectors for them  
15          all.

16          (7) Business and management education is es-  
17          pecially critical in Africa where, in the face of huge  
18          shortages in both the private and public sectors, only  
19          50 business schools exist to serve nearly 800 million  
20          people, compared with 1,000 business schools in  
21          India and 1,200 in the United States.

22          (8) While many institutions in Africa do offer  
23          a business certificate/degree, the training can lack  
24          certain practical elements, which makes it difficult

1 for graduates to readily apply their skills in the real-  
2 world.

3 (9) Educational institutions are not rapidly re-  
4 sponding to this urgent challenge.

5 (b) ASSISTANCE TO ESTABLISH PARTNERSHIPS BE-

7 provided under subsection (a) and an analysis of the ex-  
8 tent to which such assistance could be provided in other  
9 regions of the world.”.
